Top Financial Experts Announce New Developments at the 20th Annual Money Show Las Vegas

Sarasota, FL (May 8, 2008) – InterShow, producers of The Money Show, announced today that several participating exhibitors and speakers are set to unveil new products and developments at The Money Show Las Vegas, May 12-15, 2008, at the Mandalay Bay Resort & Casino. VectorVest, Inc., well known throughout the world for its unique fundamental and technical stock analysis system, will present its latest product, VectorVest Real-time, which is scheduled to hit the market on June 1. EverBank, a top, private financial services company, has recently launched a new part to their Web site developed to help teach consumers how foreign currencies can be used to diversify their portfolios. Mark Skousen, college professor, prolific author, and world-renowned speaker will reveal his latest book, *EconoPower: How a New Generation of Economists is Transforming the World*.

VectorVest is set to take their trademark technical stock analysis system into the real-time environment. This product will track over 8,300 stocks for 28 indicators in real-time. Now VectorVest analyzes, sorts, ranks and graphs every stock for value, safety and timing and provides buy, sell and hold signals as they develop throughout the day. VectorVest's exclusive market timing indicators analyze market direction and signal intra-day market reversals as they occur. You will be able to use VectorVest's powerful search engine to scan the market in real-time for the best money making candidates. To see the unveiling of this product, join VectorVest in the exhibit hall on Thursday, May 15th from 10:30 am – 11:15 am.

With EverBank's new addition to their Web site, viewers are now provided with a detailed explanation of most major foreign currencies. It was designed to offer an outline to the economic conditions in each country. The Web page also provides insights into each currency first-hand from the Sr. Vice President of EverBank World Markets, Chuck Butler, as well as the various ways EverBank can help you can include that specific currency in your portfolio.

Mark Skousen, often known as the "maverick" of economics for his contrarian and optimistic views, will be a featured keynote speaker at The Money Show Las Vegas. He has recently written a book entitled, *EconoPower: How a New Generation of Economists is Transforming the World*, in which he focuses on a new group of economic experts who are solving real-world problems such as road congestion, health care, public education, crime, world poverty, and other issues high on the public's list. In his latest newsletter, *Forecast & Strategies*, Mark explained that "EconoPower" is different from other financial bestsellers, such as "Freakonomics," which limits itself to explaining curiosities in the marketplace (such as why drug dealers live at home on a minimum wage). Dr. Skousen's book will be available for purchase at the bookstore in the exhibit hall during the show. He will also hold a book signing immediately following opening ceremonies on Monday, May 12 at 7:00 pm.

The Money Show Las Vegas includes over 100 world-renowned experts and features

200 educational workshops and more than 20 informative panel discussions. In the international exhibit hall, both novice and seasoned investors and traders can browse and compare the latest tools, software, and advisories available on the markets.
