## **Sunovia Energy Technologies Introduces New EvoLucia™ LED Utility Light**

SARASOTA, Fla.—Sunovia Energy Technologies, Inc. (NASD OTC Bulletin Board: SUNV), a renewable energy and energy conservation company based in Sarasota, Fla., has introduced EvoLucia™ LED general utility lights for multiple applications including spot lights, flood lights and general landscape lighting. The highly efficient, cost-effective lights combine the environmental and economical advantages of LED lighting with state-of-the-art reliable and durable mechanical designs. Additional product information and photos can be viewed on Sunovia's Web site at [www.sunoviaenergy.com/products/evolucia-fixtures/evolucia-general-utility-light](http://www.sunoviaenergy.com/products/evolucia-fixtures/evolucia-general-utility-light).

The new EvoLucia™ LED lights use significantly less electricity than their incandescent, quartz or metal halide counterparts, with negligible light loss for more than 10 years. As a result, the lights allow for incredible energy and cost savings while providing exceptional light quality, stability and longevity. Sunovia developed the new product in partnership with Precision Lighting and Beacon Products, members of the Varon Lighting Group, who will be distributing the product into the multiple markets.

“The new EvoLucia™ LED general utility lights are a perfect application of our advanced LED lighting technology, which provides a better quality of light while using significantly less energy,” says John LaCorte, Sunovia's vice president of global logistics and business development. “The fixtures are ideal for industrial, manufacturing and warehouse applications, or for any business desiring to decrease their lighting energy and maintenance costs and carbon footprint.”

### **About Sunovia Energy Technologies, Inc.**

Sunovia™ Energy Technologies is a Sarasota, Florida-based energy independence company. Sunovia's primary lines of business are advanced, cost-effective concentrated photovoltaic (CPV) solar systems that employ patented cadmium telluride (CdTe) solar cell and infrared (IR) technologies, and energy-efficient LED lighting products marketed under the EvoLucia™ brand.

Sunovia's solar and LED lighting technologies are among the most cost and energy efficient in the world, and the Company's research and development is dedicated to ensuring that Sunovia stays at the forefront of the renewable energy curve as markets expand and territories are defined. Sunovia is being advised by pre-eminent authorities in the field of renewable energy, including former Secretary of Energy Spencer Abraham and former Under Secretary of Commerce Kenneth I. Juster.

Sunovia owns a significant equity interest in Illinois-based EPIR Technologies, Inc., a global leader in the field of IR sensors and IR imaging, and is the exclusive marketing partner for all EPIR products. As a pioneer in the commercialization of CdTe on Si and HgCdTe on Si photovoltaic products, EPIR's knowledge and experience is equal to or exceeds any company in the world. EPIR holds the patent for growing CdTe directly on a Si readout integrated circuit, for which the company is developing a manufacturing capability with Congressional funding. Sunovia and EPIR have a network of close collaborative relationships, including the Army Research Laboratory, the National Renewable Energy Laboratory, the Night Vision Electronic Sensors Directorate, BAE Systems, and other laboratories around the world.

More information about the exclusive partnership between Sunovia and EPIR is available in the Company's Securities and Exchange filings at [www.sec.com](http://www.sec.com), or at the companies' Web sites, [www.sunoviaenergy.com](http://www.sunoviaenergy.com) and [www.epir.com](http://www.epir.com).

The Sunovia™ logo is a registered service mark of Sunovia Energy Technologies, Inc. in the United States and/or other countries. Sunovia Energy products and services and EvoLucia™ products and services are provided by Sunovia Energy Technologies, Inc.

### **Forward-Looking Statement**

Some of the statements made by Sunovia in this press release are forward-looking in nature. Actual results may differ materially from those projected in forward-looking statements. Sunovia believes that its primary risk factors include, but are not limited to: development and maintenance of strategic acquisitions; domestic and international acceptance of our product lines; defending our intellectual property and proprietary rights; development of new products and services that meet customer demands and generate acceptable margins; successfully completing commercial testing of new technologies and systems to support new products and services; and attracting and retaining qualified management and other personnel. Additional information concerning these and other important factors can be found within Sunovia's filings with the Securities and Exchange Commission. Statements in this press release should be evaluated in light of these important factors.
