

Fact Sheet – Spectra Energy Partners

Spectra Energy Partners, LP (NYSE: SEP), one of North America’s premier natural gas midstream master limited partnerships, owns and operates transmission and storage businesses. For close to a century, our general partner Spectra Energy, a *Fortune 500* company, and its predecessor companies have developed critically important pipelines, storage and related energy infrastructure that connects natural gas sources to premium markets and customers.

Areas of Expertise

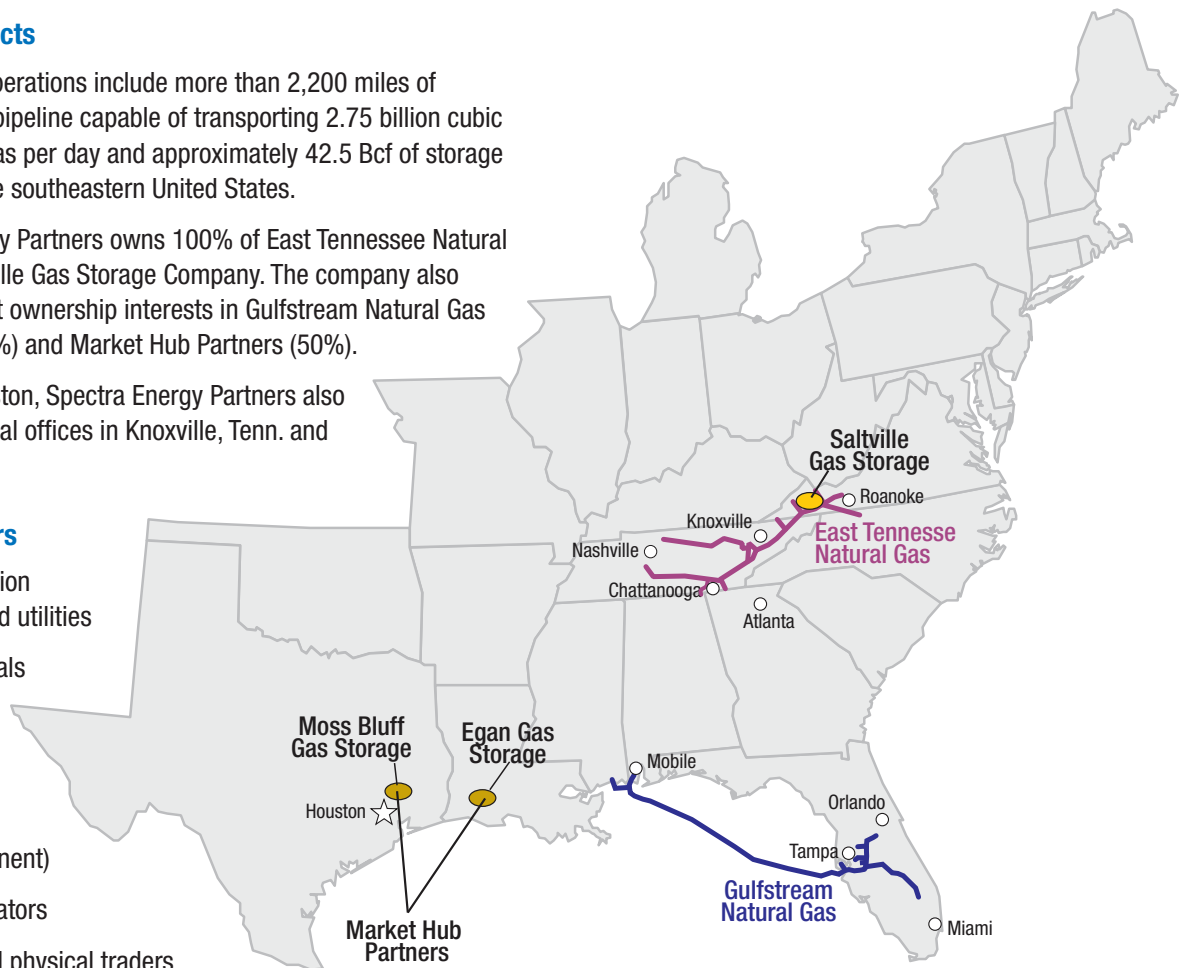

- Management has significant experience in commercial operations, regulatory and rate-making, as well as management of energy assets, and a strong background in strategic analysis and tax planning for mergers, acquisitions and financing.
- Our general partner Spectra Energy brings extensive experience in designing, planning, constructing, operating and maintaining interstate natural gas transmission systems.

Operational Facts

- Natural gas operations include more than 2,200 miles of transmission pipeline capable of transporting 2.75 billion cubic feet (Bcf) of gas per day and approximately 42.5 Bcf of storage capacity in the southeastern United States.
- Spectra Energy Partners owns 100% of East Tennessee Natural Gas and Saltville Gas Storage Company. The company also has significant ownership interests in Gulfstream Natural Gas System (24.5%) and Market Hub Partners (50%).
- Based in Houston, Spectra Energy Partners also has commercial offices in Knoxville, Tenn. and Tampa, Fla.

Core Customers

- Local distribution companies and utilities
- Major industrials
- Natural gas producers (Gulf Coast, Appalachian and mid-continent)
- Electric generators
- Marketers and physical traders
