

Spectra Energy Corp (NYSE: SE), a *FORTUNE 500* company, is one of North America’s premier natural gas infrastructure companies serving three key links in the natural gas value chain: gathering and processing, transmission and storage, and distribution. For nearly a century, Spectra Energy and its predecessor companies have developed critically important pipelines and related infrastructure connecting natural gas supply sources to premium markets.

Areas of Expertise

- Gathering and Processing**
 Spectra Energy provides natural gas gathering and processing services through Western Canada Transmission and Processing, one of the largest processing businesses in Canada, and our 50 percent investment in DCP Midstream, the largest natural gas liquids producer in the United States. The company also provides natural gas liquids distribution services in the United States and Western Canada.
- Transmission and Storage**
 Spectra Energy brings extensive experience in designing, planning, constructing, operating and maintaining interstate and interprovincial natural gas transmission systems. The company also has 265 Bcf of depleted reservoir and salt cavern natural gas storage capabilities, as well as two liquefied natural gas (LNG) storage and regasification facilities.
- Distribution**
 Through Union Gas, an integrated natural gas storage, transmission and distribution company in Ontario, Canada, Spectra Energy serves approximately 1.3 million residential, commercial and industrial distribution customers.

Operational Facts

- Natural gas operations include more than 18,300 miles of transmission pipeline and approximately 265 billion cubic feet (Bcf) of storage capacity in the United States and Canada.
- Spectra Energy’s wholly owned businesses include Texas Eastern Transmission; Algonquin Gas Transmission; East Tennessee Natural Gas; Union Gas; BC Pipeline Division; BC Field Services Division; Natural Gas Liquids Division; and Market Hub Partners.
- The company also has significant ownership interests in DCP Midstream, Maritimes & Northeast Pipeline, Gulfstream Natural Gas System and Spectra Energy Partners.
- Headquartered in Houston, Spectra Energy also has major offices in Waltham, Mass.; Calgary, Alberta; Chatham, Ontario; Denver, Colo.; Halifax, Nova Scotia; Midland, Texas; Nashville, Tenn.; Tulsa, Okla.; and Vancouver, British Columbia.
